

Lyon, le 20 novembre 2008,

VBH Deutschland
Siemensstrabe 38
70825 KOMTAL Munchingen

Dear Madam, Dear Sir,

To reply at your letter dated 10/20/2008, we confirm that our company is well informed about the new obligations with regard to the REACH regulation n° 1907/2006/EC.

We have taken the necessary measures to ensure that our suppliers pre-register and then register the substances and preparations we are using.

Under the terms of the Regulation, we are considered to be producer of articles. To this end, we should provide our customers with the information foreseen in Article 33.1 of the Regulation. Therefore, for all the articles we'll supply and with the 'candidate list' published by the European Chemicals Agency, we will indicate as soon as possible if 'candidate substances for authorization' are present in a concentration above 0.1 % weight by weight (in relation to the total weight of the article). We will do this every time this list will be updated.

We are pleased to provide the full contact details of the REACH manager within our company: Yves ROMEAS Quality, Safety, Environment director.

Yours faithfully,

Yves ROMEAS
Quality, Safety, Environment
